

RESOLUTION NO. 09-01

**ADOPTING AMENDMENTS #2-4 TO THE 2008
FEDERAL TRANSPORTATION IMPROVEMENT PROGRAM
FOR SHASTA COUNTY**

WHEREAS, Title 23 USC Sec. 134 (j) directs each Metropolitan Planning Organization (MPO) to develop a Federal Transportation Improvement Program (FTIP) every two years and to include a four-year priority list of all federally funded projects; and

WHEREAS, in order to qualify for certain types of federal funding, projects must be included in a Federal Transportation Improvement Program (FTIP) approved by the Regional Transportation Planning Agency; and

WHEREAS, the Streets and Highways Code Section 182.6(e) and Section 182.7(d) directs each MPO to submit the updated FTIP to the California Department of Transportation by August 1 on even-numbered years; and

WHEREAS, the 2008 FTIP was adopted the 24th day of June, 2008, by the Shasta County Regional Transportation Planning Agency in accordance with federal planning regulations; and

WHEREAS, an amendment to the 2008 FTIP is needed to reflect recent or anticipated changes to federal programs and transportation funding levels; and

WHEREAS, the amendment has been reviewed and is consistent with the Regional Transportation Plan and is recommended for inclusion in the Shasta County FTIP; and

WHEREAS, an updated list of individual projects constituting lump sum categories is on file with the Shasta County Regional Transportation Planning Agency; and

WHEREAS, the 2008 FTIP remains financially constrained as these requirements apply to Shasta County, which is in conformance with federal air quality standards.

WHEREAS, the 2008 FTIP has been amended to include all SAFETEA-LU requirements, including a fourth year of programming.

WHEREAS, the 2008 FTIP has been amended to include economic stimulus legislation funding to be considered available and committed for programming purposes.

NOW, THEREFORE, BE IT RESOLVED that the 2008 Shasta County Federal Transportation Improvement Program is hereby amended, as shown in Amendments #2-4, this 10th day of February, 2009, by the Shasta County Regional Transportation Planning Agency.

Norma Connick
Norma Connick, Chair
Shasta County Regional
Transportation Planning Agency

REPORT TO SHASTA COUNTY RTPA

SUBJECT		MEETING DATE	ITEM NUMBER
Federal Stimulus: Adopt Policies; Preliminary Projects; FTIP Amendments; and RTIP Amendment		2/10/09	4

RECOMMENDATION

It is recommended that the Board:

1. Adopt RTPA Policy 5-4 (attached) regarding use of federal stimulus funds allocated to the region;
2. Approve the attached preliminary stimulus project list submitted by local agencies and RABA;
3. Adopt Resolution No. 09-01 approving Amendments #2 through #4 to the 2008 Federal Transportation Improvement Program (FTIP) which adds the stimulus projects;
4. Adopt Amendment #1 to the Regional Transportation Improvement Program (RTIP) to include a portion of these projects as needed to match RTIP funding consistent with Policy 5-4; and
5. Authorize the Executive Director to make subsequent minor revisions in response to the final federal stimulus bill, state implementing legislation, and local agency priorities.

SUMMARY

A federal economic stimulus bill is expected to be approved in mid-February and will include RTPA funding for road and transit capital improvements. Projects will be subject to rapid delivery deadlines. The first steps to delivery and job creation are to develop a list of preliminary projects and program the estimated stimulus funds. To get a head start on aggressive expenditure deadlines, FHWA and FTA have recommended RTPA action in advance of the stimulus bill. Even though funding levels and requirements within the stimulus bill will change, programming a broad list of preliminary projects now, and addressing changes through administrative amendments later, will be faster than starting the FTIP and RTIP process from scratch.

DISCUSSION

Preliminary Stimulus Funding Levels and Requirements

The attached charts show the flow of stimulus funds as currently approved in the House, and as proposed in the Senate. The federal stimulus bill and state policy discussions regarding how the funds will be distributed are dynamic and changing daily. The purpose of this meeting is to program a broad list of eligible projects which qualify for stimulus funds based on what is known today. It is likely that only a subset of projects approved today will actually receive stimulus funds.

As the House and Senate stimulus bills are currently written, approximately \$30 billion will be available for streets and highways nationwide. California would receive just under \$3 billion. The most speculative assumption is that the state will distribute \$2 billion of this to regions either directly or through the State Transportation Improvement Program (STIP), keeping \$1 billion for highway maintenance and Proposition 1B projects not yet awarded construction.

Based on these assumptions, the Shasta County RTPA would receive about \$10 million either directly or through the STIP. Half of these funds (\$5 million) may need to be obligated for construction within 75 days of the President's approval. The remaining 50% must be obligated by July 1, 2010. "Obligated" means these projects must be ready to advertise for construction under all state and federal requirements. These include: FTIP/STIP programming; NEPA; CEQA; design; right of way; permits; and final authorization to construct. Failure to deliver within the required timelines will result in lost funds to the region. These deadlines essentially limit the types of viable projects to 'concrete-on-concrete' where there are no environmental issues or right-of-way needs.

A substantial portion of the estimated \$1 billion state share – not addressed in today's actions – is currently slated for expenditure in Shasta County. State share stimulus may be used to replace the Antlers Bridge on Interstate 5 over Shasta Lake. This \$275 million project is federal-shovel-ready, and is currently programmed in the State Highway Operation and Protection Program (SHOPP), where funds may not be available due to the state's budget failures. It is expected that the RTPA will program state projects such as Antlers Bridge in the FTIP at the February 24th meeting once the stimulus bill is signed and state projects confirmed. Separate pools of road funds may also be available for federal land roads (i.e., National Park, Forest Service) and reservation roads.

Approximately \$1.9 million is also expected to be available to RABA for transit capital. These funds are being programmed in the FTIP at this time to purchase new vehicles.

Selection of Regional Stimulus Projects for Eligibility

On January 23, RTPA staff met with city, county, RABA, and Caltrans officials to discuss use of stimulus funds. It was agreed to act quickly to program a preliminary list of projects. It was also agreed that since there are no RTPA priority projects which can meet the delivery deadlines as currently written, the stimulus funds should be apportioned to the cities and county based on population. Transit funds would be distributed based on existing federal programs through which the funds would flow.

The preliminary list of projects is provided in Attachment 1. As recommended by staff, the cities and county submitted projects for programming in amounts which exceed the \$10 million in estimated stimulus funds. Since the programming process can take 60 days for FHWA approval it is prudent to start the process now with a broader list of possible projects. Once the stimulus bill amounts and eligibility requirements are known, the RTPA can administratively swap or remove projects as needed to meet actual local agency funding levels based on the population apportionments.

Staff and Caltrans have recommended that the cities and county proceed with projects that have no unresolved environmental impacts or right-of-way needs. The Cascade Boulevard realignment project in Shasta Lake may have difficulty meeting the "use it or lose it" delivery deadline of July 1, 2010, but has already undergone all design and environmental studies. In addition, delivery of the City of Redding's top priority project, the Oasis Interchange Project, will also prove problematic to deliver within the "use it or lose it" deadlines currently in the bill. If it becomes apparent at any time that a project cannot meet the federal "use it or lose it" deadlines, the agencies can shift to other project priorities which can be delivered on time, (such as pavement rehabilitation) in order to avoid loss of funds for the region. To this end, staff has advised, and the City of Shasta Lake and Redding staff have provided, a back-up list of pavement preservation projects in Redding and Shasta Lake to be included in the FTIP amendment.

FTIP Programming

Due to nuances in federal requirements, the FTIP must be programmed in three steps to; 1) program the stimulus funds only (no projects) based on estimates from Caltrans and US Department of Transportation (DOT); 2) add those projects that can be "administratively" amended into the FTIP; and 3) add all remaining projects through a formal amendment process. The FTIP amendments are as follows:

- **Amendment # 2: Program the Regional Share of Stimulus Funds:** This amendment adds \$255 million of Federal Highway Administration (FHWA) funding and \$1.898 million of Federal Transit Administration (FTA) funding to the FTIP without regard to the programming of specific projects. The

\$255 million FHWA amount is based on the state's intent to program the I-5 Antlers Bridge Replacement at a future meeting.

- * **Amendment #3; Administrative Amendment:** Transportation Enhancement (TE) projects and transit projects proposed for stimulus funding can be added to the FTIP administratively resulting in expedited programming approval (one week).
- * **Amendment # 4; Formal Amendment:** This amendment adds the remaining stimulus projects which do not qualify for an administrative amendment (one to two months).

The required FTIP support documentation is attached.

STIP Programming

A portion of the regional stimulus projects may need to be funded through the STIP process in addition to the FTIP process. In this event, staff will need to submit a list of projects to the California Transportation Commission in an amount equal to the RTIP shares of funding available. Staff will choose RTIP projects from the jurisdiction's shares that are slated for later delivery, since this added state process will take more time.

All agencies have been advised to begin coordinating with the Caltrans district now regarding their prospective projects. Caltrans has agreed to begin the NEPA process but cannot make the final NEPA determinations until the programming is approved by FHWA and the stimulus bill is signed.

ALTERNATIVES

The Board may delay these programming approvals until the stimulus bill funding levels and requirements are known. This is not recommended since formal amendments may take a month or more to receive federal approval. Based on the broad list of projects programmed by this action, local agencies, RABA and the RTPA will have the flexibility to switch out or delete projects within the program more quickly using the administrative amendment process.

OTHER AGENCY INVOLVEMENT

This item has been coordinated with the cities, county, RABA, Caltrans, FHWA and FTA.

FINANCING

Approval of this item will result in the ability to develop and construct projects using federal stimulus funds.

Daniel S. Little, AICP, Executive Director

SHASTA COUNTY RTPA POLICY AND PROCEDURE MANUAL	Number
	5-4
SECTION: Rules of the Shasta County RTPA	Policy for the Use of Federal Stimulus Funds Allocated to the Region
APPROVAL DATE: 2/10/09 Page No. 1 of 2	

POLICY FOR THE USE OF FEDERAL STIMULUS FUNDS ALLOCATED TO THE REGION

The federal government is working to enact an economic stimulus package which includes infrastructure investment. The U.S. Department of Transportation has directed Metropolitan Planning Organizations to develop project selection and programming procedures in advance of the bill. This policy may be amended once the stimulus bill is passed and any related state legislation and policies are enacted.

A. Stimulus Funds for Streets and Highways Assigned to Regions

1. Street and highway federal stimulus funds made available to the SCRTPA (Region) – either directly or through regional shares of the State Transportation Improvement Program (STIP) – shall be apportioned to the three cities and the county (Jurisdictions) on the basis of population. Initial spending targets for each jurisdiction are as follows:

Shasta County	1/1/2008	%	Target
Anderson	10,579	5.8%	\$ 580,511
Redding	90,491	49.7%	\$ 4,965,594
Shasta Lake	10,279	5.6%	\$ 564,049
Unincorporated	70,887	38.9%	\$ 3,889,846
County Total	182,236	100.0%	\$ 10,000,000

(per DOF E-1 report)

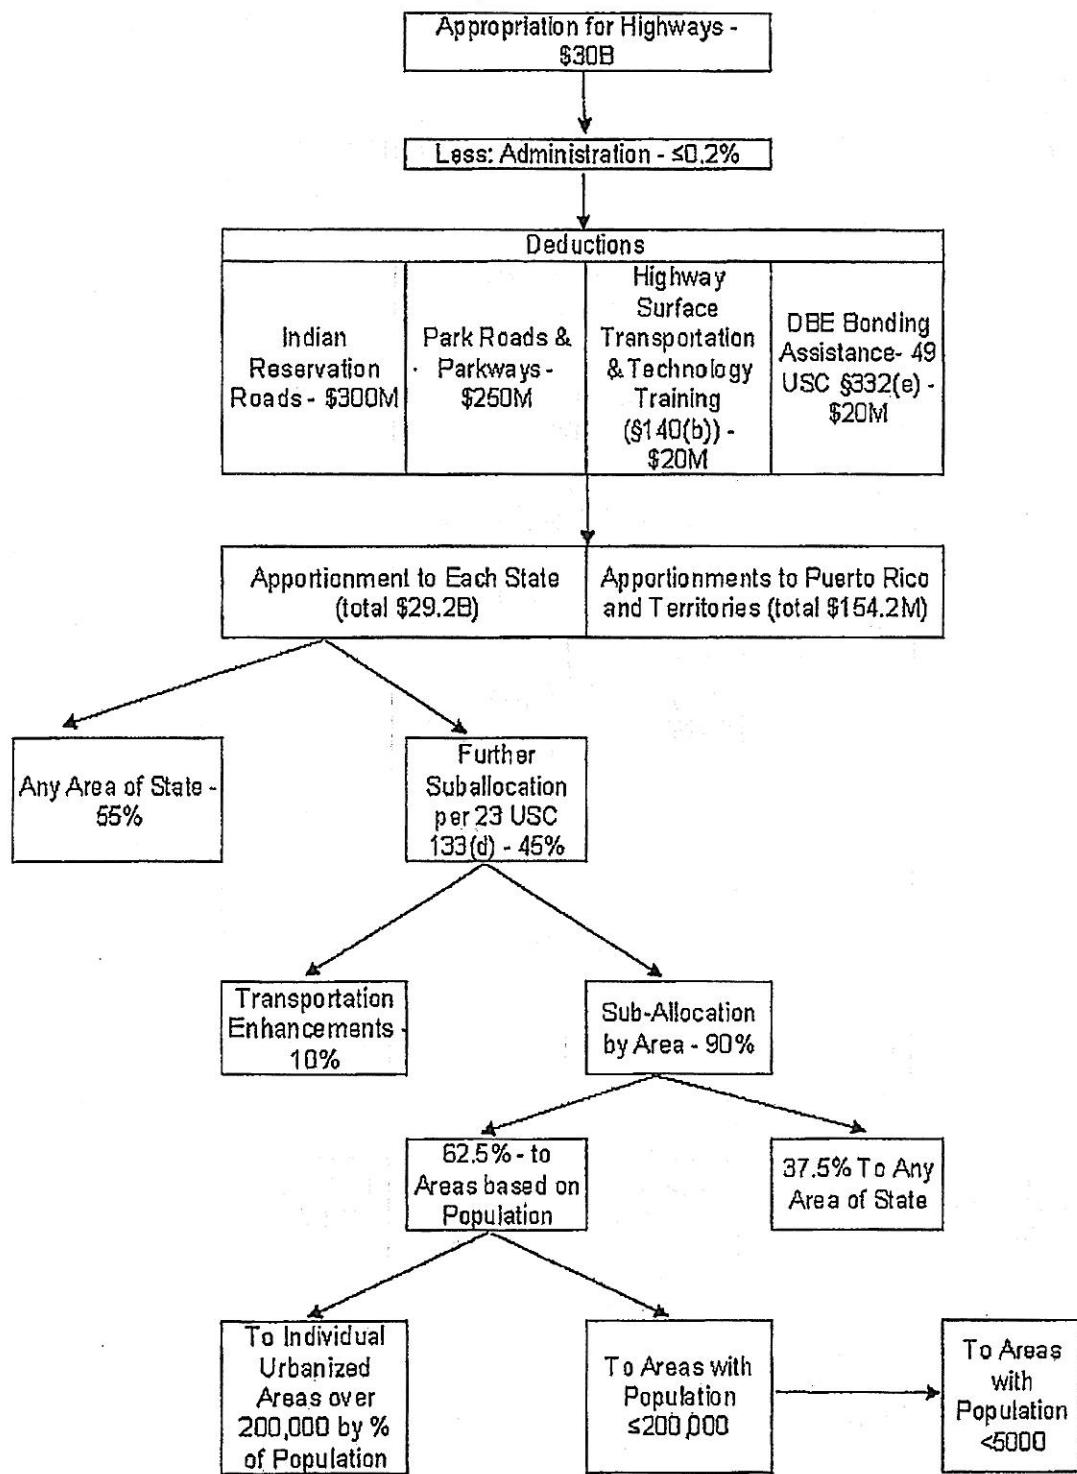

Note: These are not actual stimulus amounts or guarantees; these are merely targets for programming purposes.

2. Jurisdictions shall nominate stimulus projects at their discretion. Projects must meet federal eligibility requirements.
3. Jurisdictions may nominate projects totaling more than their funding targets for programming purposes. Actual funding, however, will be limited to their proportional share of the regional stimulus funds available and allocated by the RTPA Board.
4. Jurisdictions shall coordinate with the Region on delivery of projects to ensure that no regional stimulus funds are lost under state and federal "use it or lose it" provisions.

- a. In the event there are multiple "use it or lose it" deadlines for portions of the stimulus funds, Jurisdictions are encouraged to spend up to 100% of their shares by the initial deadline.
 - b. A jurisdiction may deliver projects that do not meet the intermediate "use it or lose it" deadlines without losing shares, provided that they coordinate with the Region to ensure that other Jurisdictions can over-deliver projects to prevent loss of stimulus funds to the Region.
 - c. The Region will monitor all projects for timely delivery. If it becomes apparent that a Jurisdiction will cause the Region to lose funds, the Region may allocate the funds to another Jurisdiction which can demonstrate timely delivery.
5. Stimulus projects scheduled for earliest delivery shall be allocated stimulus funds provided directly to the Region. Projects scheduled for the latest delivery shall be assigned stimulus funding through the STIP.
 6. Jurisdictions may be asked to provide non-motorized projects to expend regional Transportation Enhancement (TE) shares.
 7. Notwithstanding the above, the RTPA Board may consider alternative priorities or projects pending any new information in the final stimulus bill or related state legislation and policy.

B. Stimulus Funds for Transit

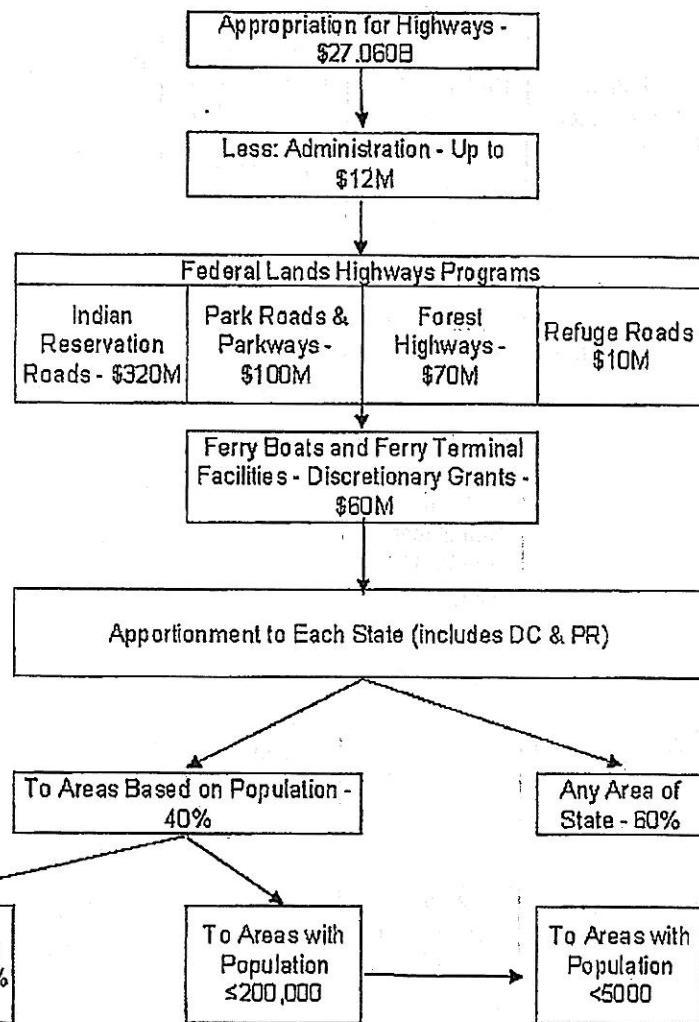

1. Stimulus funds for transit capital are expected to be distributed through existing programs such as FTA 5307 and 5311. Use of these funds shall be subject to processes established through these programs. Use of these funds for transit operations may be prohibited by the stimulus bill.

NOTES:

¹Regional: Some MPOs may not have regional fund sources. In these cases, data would be shown as "zero" or not applicable.

²Federal Total: Is the sum of federal highway and federal transit programs.

³Innovative Finance: Toll revenues have been included under local and regional while GARVEE bond revenues are included under state.

⁴Proposition 1B: Subtotal is a sum of funding for various programs funded under proposition 1B except for STIP Augmentation and SHOPP Augmentation
